

Luvanto

Luxury Design Flooring

**The Complete
Collection**

FIND YOUR STYLE WITH LUVANTO

Welcome to Luvanto, a specially selected range of Design Flooring with endless colour combinations, laying patterns and design features available to create a floor that makes a statement in any room.

Stunningly realistic, beautifully practical, incredibly hard wearing and surprisingly affordable.

Why should you choose Luvanto?

- A comprehensive range of products to suit every need.
- The perfect choice for professional floor fitters to accomplished DIYers.
- All Luvanto design flooring comes with a minimum 25-year domestic and 10-year commercial warranty for added peace of mind (Endure Pro - Lifetime domestic and 20-year commercial).
- Luvanto is hardwearing with a heavy duty 0.55mm wear layer (Endure Pro - 0.7mm) and UV coating which means the floor will look as good as new for many years, even with the punishment of home living or in heavy trafficked areas.
- Stable - It will not move or shrink as much as real wood flooring.
- Suitable for use with underfloor heating.
- Realistic and luxurious - It looks so like real wood or stone it is hard to tell the difference. However, it is much warmer and more comfortable underfoot.
- Easy to maintain - It needs very little ongoing maintenance- unlike real wood or stone floors there are no expensive polishes or lacquers needed.
- Right for every room - It can be fitted in nearly every type of room including kitchens and bathrooms where there is a lot of moisture.
- One of the highest rated LVT products on the market for slip resistance which makes it very safe especially for the elderly or very young who might not be so steady on their feet.
- Surprisingly affordable - it gives the expensive look of real wood or stone but without the large price tag and offers fantastic value for money.
- It is ideal for households with families and pets - It's life-proof.
- 100% water resistant.
- Flame resistant.

Luvanto is a premium flooring product and is available to purchase via our nationwide network of premium independent retailers and contractors throughout the UK and Ireland.

We have excellent stock holdings, so you can be sure that as soon as you've made up your mind on the perfect floor for you, it will be delivered very quickly.

So, take a look at our range, select the right product for your needs and prepare to be inspired.

Best Wishes

QUICK TIP

In a rush? Check out our full palette of colours from page 116.

LUVANTO KEY

Luvanto Design is an adhered range of Luxury Vinyl Tile (LVT) that requires professional installation. Our Luvanto Design range offers great flexibility giving you the option to create bespoke patterns and making use of our design strips to create elaborate borders and effects.

Luvanto Design Herringbone is a selection of small Luvanto Design planks that are glued down to the floor, offering amazing design options such as basketweave and parquet effects.

For more information see page 126-127.

Luvanto Click is the latest range of non-adhered, free floating, easy to lay LVT planks and tiles that click together to perform a perfect joint. We recommend you use an official Luvanto underlay to complete your Click flooring.

Luvanto Click Herringbone is a selection of medium Luvanto Click planks that cleverly click together in a traditional parquet pattern to give you that elegant herringbone effect.

For more information see page 128-129.

Luvanto Click Plus is produced using the latest Stone Plastic Composite (SPC) technology. A better, easier to install, non-adhered, free floating click system with an integrated acoustic underlay ensures that Click Plus always delivers a professional finish.

For more information see page 130-131.

Luvanto Pace is our new flooring range that is the fastest and, arguably, the easiest to lay. Each plank comes with a self-adhesive backing that is soaked into the built-in underlay. This means that any damaged planks can be up-lifted and quickly replaced due to the long life of the self-adhesive backing. Not only does this offer you similar design options as Luvanto Design but it also gives you a more forgiving installation and easier life-long maintenance.

For more information see page 132-133.

Luvanto Endure Pro is produced using the latest Stone Plastic Composite (SPC) technology. A better, easier to install, non-adhered, free floating click system with an integrated acoustic underlay ensures that Endure Pro always delivers a professional finish. Thanks to the clever technology inside, Endure Pro can be installed in most areas of direct sunlight without having to worry about issues in the future. Endure Pro can also be installed over most existing flooring.

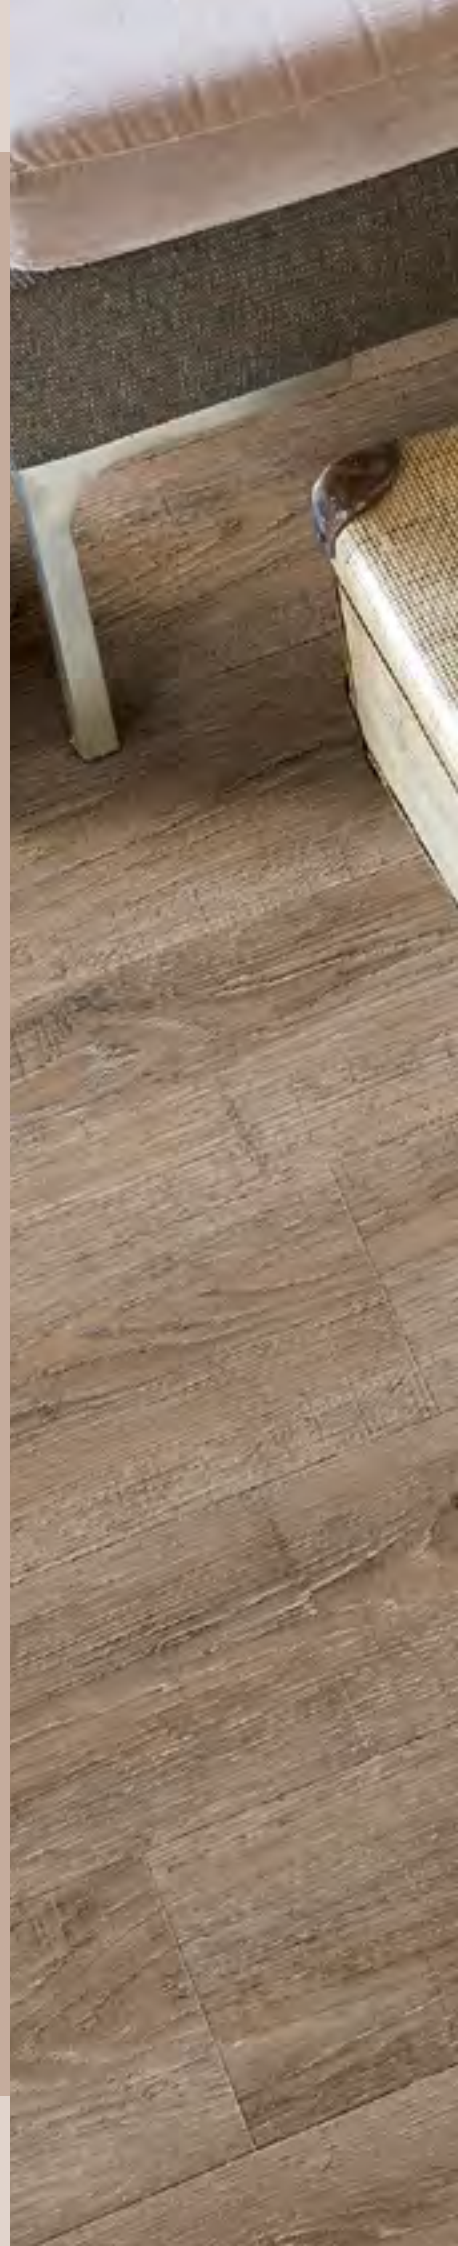

For more information see page 134-135.

WOODS

Traditional wood gives a room a rich, natural look that adds both warmth and style. If you are looking for a more modern look, stylish greys add a classy and contemporary feel.

LUVANTO DESIGN, TRADITIONAL & CONTEMPORARY HERRINGBONE

Luvanto Design is one of our spectacular flooring ranges. It includes wood effect planks and stone tile effect products. This range is most popular for using your own creativity whether it be in the kitchen, living room, bathroom or anywhere else in the home.

Luvanto Design is an adhered range of Luxury Vinyl Tile (LVT) that requires professional installation. It is extremely stable, strong and hard wearing which means it is safe to use in areas subject to temperature changes such as conservatories or in front of large glass panelled doors (when installed with the recommended adhesive) and will look as good as new for many years.

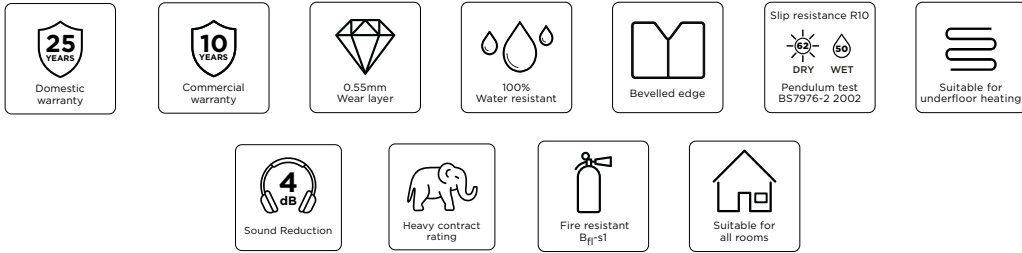

Our Luvanto Design range offers great flexibility giving you the option to create bespoke patterns and making use of our design strips to create elaborate borders and effects.

Luvanto Design Herringbone is a selection of different sized Luvanto Design planks that offer amazing design options such as basketweave and parquet effects.

This particular range does not shrink or expand as much as laminate flooring, so it is safe for using underfloor heating – a perfect addition to your bathroom or living room floor.

DESIGN, TRADITIONAL & CONTEMPORARY HERRINGBONE

Luvanto Click
Luxury Design Flooring

LUVANTO CLICK & CLICK SPC HERRINGBONE

The Luvanto Click range is our fast, hassle-free fitted flooring with the newest click technology system. You can walk on your new luxurious flooring straight away, eliminating the use of glue – something that is incredibly popular with DIY fitters.

This range can be used in most rooms but is extremely popular to use in bathrooms and kitchens due to it being 100% waterproof.

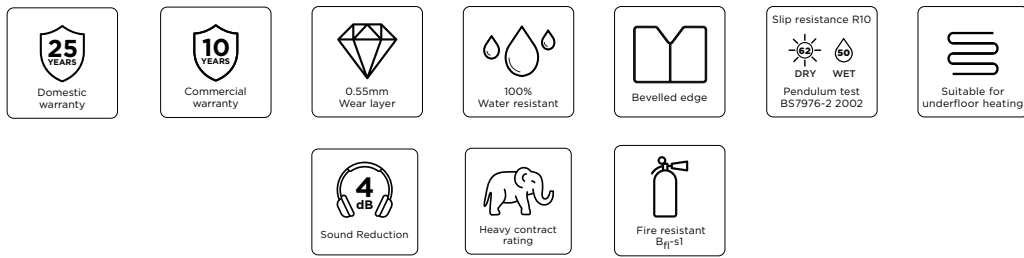

The Luvanto Click range with a high slip resistance is extremely safe for your family - very handy if you are elderly or have small children who are just finding their feet.

Luvanto Click Herringbone is a selection of Luvanto Click planks that cleverly click together in a traditional parquet pattern to give you that elegant herringbone effect.

Another perk of Luvanto Click and Click Herringbone is that, when fitted with a SoundClick underlay the floor will become much quieter to walk on, perfect for those loud families or upper floor apartments.

- Easy to install - it has the 2G click system which is strong & reliable. It is also easy to cut without the need for specialist tools.
- Minimum disruption - You can walk on the floor and put furniture back in the room again straight away after laying the new floor.
- A more affordable option to fully adhered Luvanto Design systems.
- Not suitable for areas with a lot of exposure to direct sunlight e.g., conservatories, sky lights and large patio/bi-fold doors.

Luvanto Click+
Luxury Design Flooring

LUVANTO CLICK+

Luvanto Click+ is our new and improved range of click together flooring.

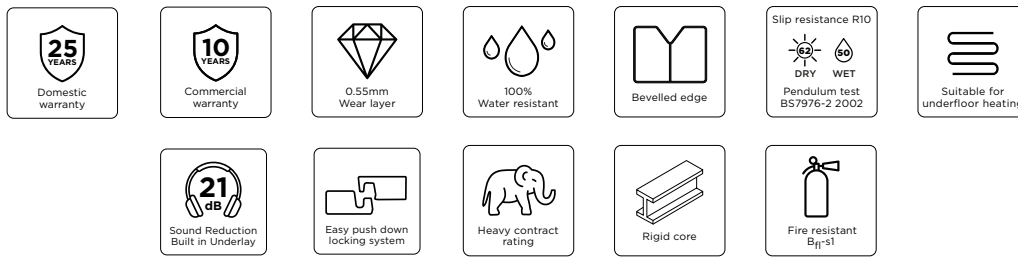

It has all the fast, hassle-free benefits of Click along with the newest **drop lock** technology system, but with the added benefit of built-in underlay.

The integral underlay on Click+ provides a 21dB impact sound reduction. This is especially useful in settings where noise can cause issues and saves on potentially buying additional sound proofing products.

A complete easy-to-fit product in one.

- This range can be used in most rooms but is extremely popular to use in bathrooms and kitchens due to it being 100% waterproof.
- The Luvanto Click+ range with a high slip resistance is extremely safe for your family - very handy if you are elderly or have small children who are just finding their feet.
- Easy to install - it has a **drop lock** system which is strong & reliable. It is also easy to cut without the need for specialist tools.
- Minimum disruption - You can walk on the floor and put furniture back in the room again straight away after laying the new floor.
- A more affordable option to fully adhered Luvanto Design systems.
- You can walk on your new luxurious flooring straight away, eliminating the use of glue - something that is incredibly popular with DIY fitters.
- Not suitable for areas with a lot of exposure to direct sunlight e.g., conservatories, sky lights and large patio/bi-fold doors.

Luvanto Pace

Luxury Design Flooring

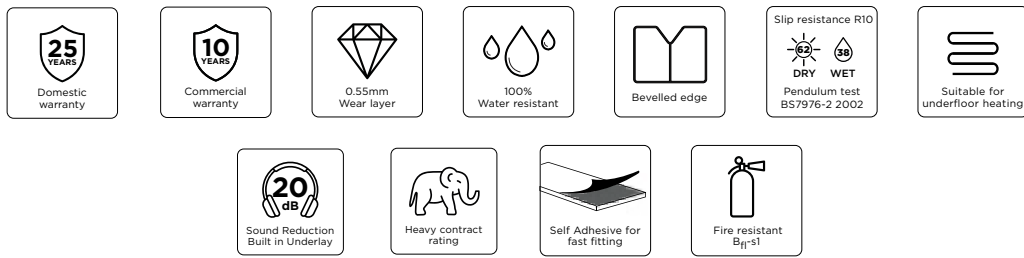

LUVANTO PACE

Luvanto Pace is our latest flooring range that is the fastest and, arguably, the easiest to lay. Each plank comes with a self-adhesive backing that is soaked into the built-in underlay. This means that any damaged planks can be lifted and quickly replaced due to the long life of the self-adhesive backing.

Not only does this offer you similar design options as Luvanto Design but it also gives you a more forgiving installation and easier life-long maintenance. Ideal for commercial projects.

- Self-adhesive system - This will save time and money on adhesive and installation. It is also 50% quicker to install thus saving on labour costs.
- Easy to re-fit- If there are any issues under the floor or with an individual plank being damaged this can be easily replaced without having to unclick the entire floor.
- Suitable for many different subfloors - This product can be installed over existing chipboard, ceramic and porcelain floors providing the subfloor is level, flat and free of dust. This will save time and additional labour on removing the original floor.
- Excellent design capability. Can be cut and shaped to achieve your desired patterns and layouts in the same way as Luvanto Design.
- Dimensionally stable-it is suitable to be installed in areas of direct sunlight (except conservatories) and only needs a 5mm expansion gap.
- Doesn't need acclimatisation before installation, so very easy for contractors to fit within their timescale.
- Passes the castor wheel, chair test so ideal for office areas.
- Built in underlay which provides 20dB impact sound reduction. This reduces noise issues for and saves on potentially buying additional sound proofing products.

Luvanto Endure Pro
Luxury Design Flooring

LUVANTO ENDURE PRO

Luvanto Endure Pro is known as the new generation of luxury design flooring. With a popular range of stylish colours, we have something for everyone.

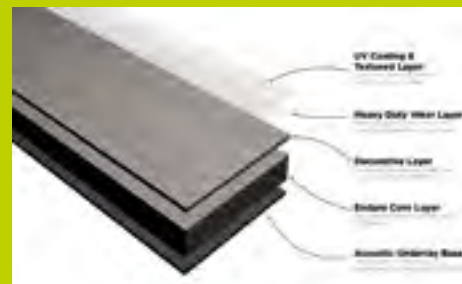

Luvanto Endure Pro is produced using the latest Stone Plastic Composite (SPC) technology. With a better, easier to install, non-adhered, free floating **drop lock** system, Endure Pro always delivers a professional finish.

With a lifetime domestic warranty, a tough 0.7mm wear layer, and acoustic backing for maximum sound reduction, Endure Pro is in a league of its own.

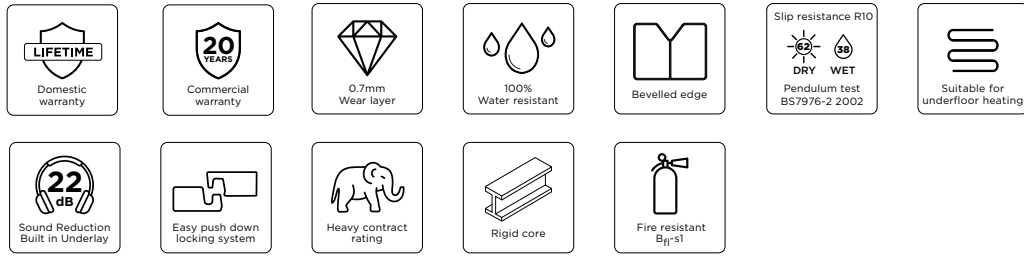

Thanks to the clever technology inside, Endure Pro can be installed in most areas of direct sunlight without having to worry about issues in the future. Endure Pro can also be installed over most existing hard flooring.

What makes Endure Pro so great?

- One product for **most** areas of domestic and commercial use.
- Easy to install - It has a strong reliable **drop lock** system which is easy to fit together. It is also easy to cut without the need for specialist tools.
- Minimum disruption - You can walk on the new floor and out the furniture back in the room straight away after laying the new floor.
- Endure Pro does not expand with heating and cooling, which means it can be installed with only a 5mm expansion gap.
- Up to 600m² can be installed without leaving any expansion joints. Expansion gaps can be sealed with a low modulus silicon.
- Quiet to walk on, Endure Pro has an integrated acoustic backing which provides one of the highest ratings on the market 22dB of sound reduction without having to use an extra underlay.
- The built-in underlay means it can be installed over most existing hard flooring surfaces - saving time and money.
- Right for every room - it can be fitted in every type of room including kitchens and bathrooms where there is a lot of moisture.
- Endure Pro has a tough 0.7mm wear layer which makes it one of the most hardwearing and scratch resistant LVT's available.
- Complete peace of mind. Endure Pro is one of the best LVT products on the market, it has the longest warranty on the market (lifetime domestic and 20 years commercial).

FLOOR CARE & CLEANING

Luvanto LVT floors are extremely easy to clean and maintain. For the best results always use the Luvanto Luxury Cleaning Kit and follow the instructions for use on the back of the bottles.

Our useful tips will also help you to keep your Luvanto floor looking at its best.

We recommend that every 6 to 12 months that you give your floor some extra care by removing any built-up layers of old care products, wax or adhesive residues using Luvanto Strip.

IMPORTANT

Never use a steam cleaner to clean your Luvanto floor. This could cause delamination and void your warranty. Do not use abrasive or chemical detergents (like bleach) as this can damage the wear layer and significantly reduce the life of your floor.

LUVANTO LUXURY CLEANING KIT CONTAINS:

- Luvanto Clean, 750 ml
- Luvanto Revive, 750 ml
- Luvanto Strip, 750 ml
- Blue Pad Gripper
- Refresh Pad
- Green Scrubber Pad
- Felt Furniture Pads
- Floor Care Cleaning and Maintenance Booklet.

Code: QAF-LVA-FC

COMPLEMENTARY PRODUCTS

QA UNIVERSAL & HIGH TEMPERATURE ADHESIVE

Designed and approved for the rapid and reliable installation of dryback Luvanto LVT flooring and acoustic underlays; fitter friendly with higher initial grab, faster drying and high strength when fully set. Pull-off tests have shown that the smoothing compound will fail before the adhesive.

QA Universal & High Temperature Adhesives are low-emission, solvent-free and odourless; and are suitable for underfloor heating, areas of high footfall and castor wheel traffic.

QA Universal Adhesive

QAA-ADH-U1 - 6kg

QAA-ADH-U2 - 14kg

QA High Temperature Adhesive

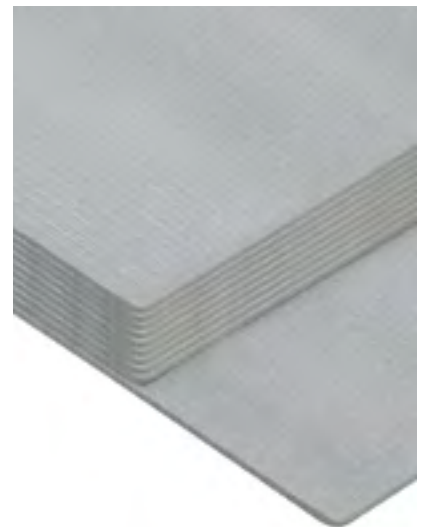

QAA-ADH-H1 - 6kg

QAA-ADH-H2 - 14kg

FINEFLOOR TECHNIBOARD

Only to be used under Jumpax Basic, FineFloor TechniBoard is a lightweight XPS panel used to eliminate uneven subfloors and improve insulation.

- **On the level** - As well as insulation, TechniBoard is designed to provide a level subfloor for the floor covering, smoothing out the most uneven areas to offer stable support and help your floor last longer.
- **Keep out the cold** - With exceptional thermal insulation - 2.15 TOG - TechniBoard is perfect for use on ultra-cold subfloors; so in a cellar for example, it'll make your room feel so much cosier and usable.
- **Easy to fit** - Made from modern polystyrene material, TechniBoard is easy to line up, cut and fit - saving you a great deal of time and effort wherever you're installing it.
- **QAU-FFT-01 (1200mm x 500mm x 5mm Panels)**

JUMPAX BASIC - FLOOR LEVELLING SYSTEM

High quality MDF free-floating system for creating a smooth subfloor.

- **Easy does it** - With a 3mm base and 4mm top board bound by a special interactive adhesive. It's quick, clean and easy to install compared with traditional screeds.
- **Smooth, stable and simply warmer** - The system's designed to create a subfloor layer over underfloor heating systems for a perfect finish ready for the floor covering - with very low thermal resistance to really let heat through.
- **Lightening the load** - The lightweight MDF material means Jumpax Basic is a breeze to lift and manoeuvre, so with its quick and easy installation you'll really save time and effort.
- QAU-JPB-01 (0.6m x 1.2m x 7mm)

QUICKTHERM VAPOUR UNDERLAY

PE foam underlay for underfloor heating, with added moisture protection for use under Jumpax Basic.

- **The heat is on** - QuickTherm Vapour features our unique perforated design and ultra-low tog value of just 0.303, so it helps your underfloor heating system work at its best to keep you lovely and warm!
- **Dry as a bone** - It also has a built-in vapour barrier with overlap to stop moisture rising up from the sub-floor - protecting your floor covering and keeping your room damp-free.
- **Lightweight champion** - The lightweight closed cell polyethylene material makes it a breeze to lift and move around... saving time and effort during installation.
- **QAU-QTH-02 (1m x 10m)**

SOUND BARRIER ACOUSTIC UNDERLAY

High performance acoustic underlay for glue down and click LVT installations. Ideal for use under FineFloor Techniboard.

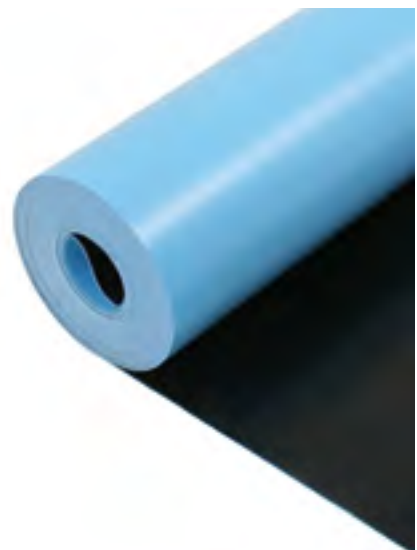

- **Quietly does it** - SoundBarrier provides an exceptional 24dB of impact sound reduction - higher than any other LVT underlay available. It also reduces walking noise by 31%, making the room a whole lot quieter.
- **Built to last** - Made from a high-density polypropylene foam, SoundBarrier will easily last the lifetime of the floor, even under the heaviest foot traffic. It creates a stable base which supports the floor for life.
- **Protects against damp** - The unique moisture-guard properties of SoundBarrier stop moisture getting through from the sub-floor, keeping the floor dry.
- **QAU-SBR-02 (0.9m x 16.85m x 1mm - 15m²)**

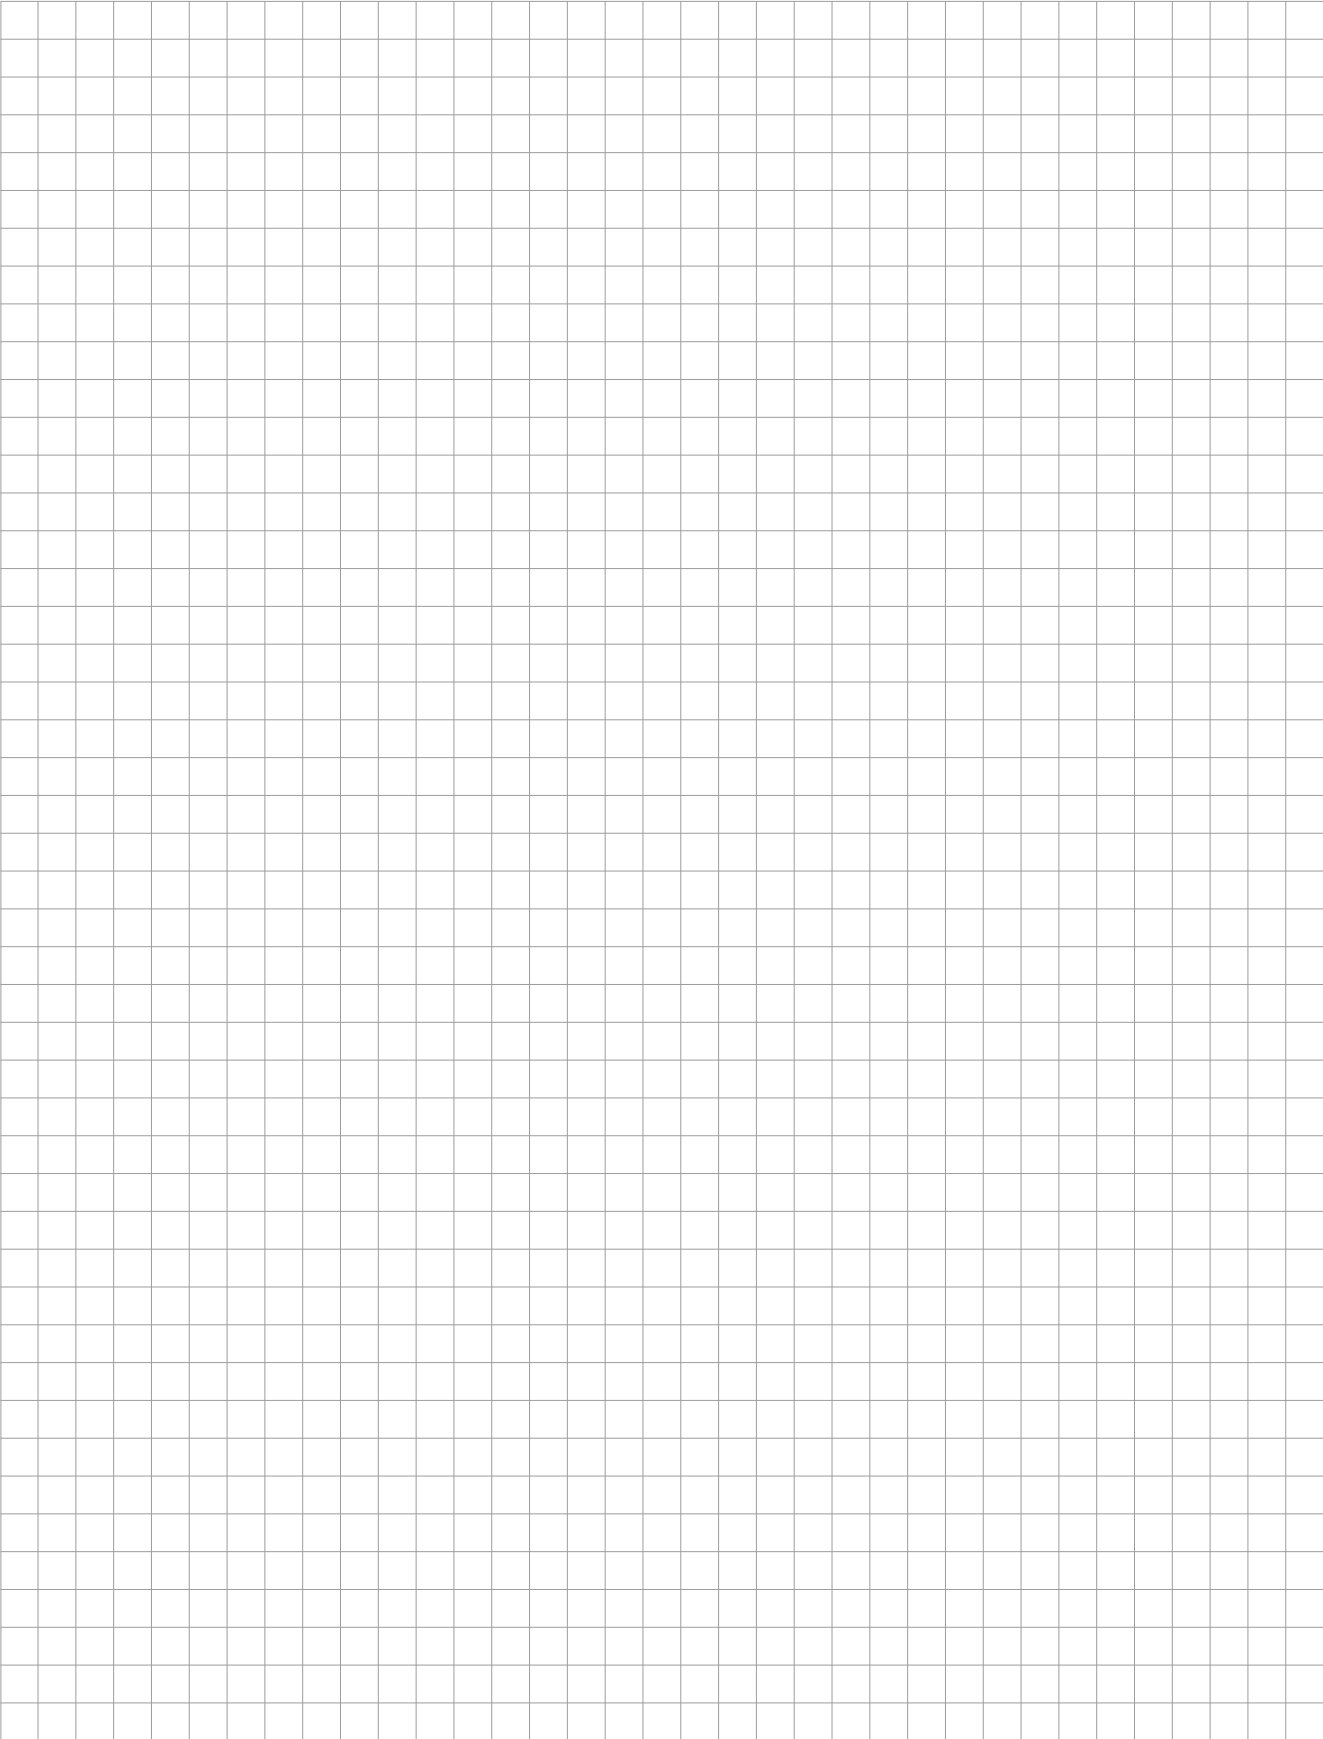

SOUNDCLICK UNDERLAY

Lightweight underlay for use with Luvanto Click flooring with anti-slip top surface.

- **No slip-ups with the floor** - SoundClick has an anti-slip top surface, which holds the flooring firmly in place. It makes it so much easier to fit, without the pieces sliding around. And when the floor is down, you can guarantee it won't be going anywhere - even if it takes the full force of family use!
- **Quietly does it** - The dense, closed cell polyolefin foam of SoundClick gives it 18dB sound reduction - so it deadens any loud noise and makes the whole room quieter.
- **That warm feeling** - SoundClick has an ultra-low tog value of just 0.27, which means your underfloor heating system works much more efficiently, keeping your floor lovely and warm!
- **QAU-SCL-01 (1m x 15m x 1.5mm)**
