Luxury Design Flooring

HOLDEN VALE APARTMENTS, ROSSENDALE

Holden Vale was previously a hotel and has now been converted into 15 luxury apartments. The Client selected Luvanto Design Sun-Bleached Spruce as it fitted in well with the character of the building and the rural surroundings.

“The design specification for the Holden Vale Project required a contemporary flooring solution which included a range of surfaces that satisfied the quality expectations of the client and ultimately the target audience.

We sourced a luxury vinyl tile flooring from QA Flooring Solutions which satisfied the specification perfectly - a great product that was high quality and a cost effective solution.”

Jane Verity-Smart
Design Director at Head Office 3, Installation Partner
