

Luvanto
Luxury Design Flooring

MARCO ISLAND APARTMENTS

The building was partially fitted out, from the ground to floor 9 in 2005, but the upper floors left open for storage. Headoffice3 dealt with the fit-out of the top 3 floors, including some stunning penthouses.

“Here at Headoffice3 we specialise in residential refurbishments on large scales. We have used Luvanto on all our schemes due to its quality, design and robustness.

The customer service we receive from QA is great, they are always willing to help us with specification and delivery. We work to tight deadlines, but we use QA products with great confidence, as we know that the products are top quality and service is 1st class and they are always very accommodating.”

Kelly Bell
Design Manager at Head Office 3, Installation Partner
