GROCERY RETAIL FLOORING

A LIVERPOOL BASED REGIONAL FRANCHISE OF A GLOBAL SUPERSTORE, WITH 74 OUTLETS IN THE UK, TRANSFORMS WAREHOUSE INTO A NEW SHOPPING EXPERIENCE.

This particular conversion of a warehouse into a grocery store with a 300m² customer retail space had a number of obstacles to overcome that made the use of Luvanto Pace LVT in Misty Elm the perfect choice.

The floor of the warehouse wasn't in the best of condition and would normally need screeding to achieve a suitable surface for adhesion of LVT flooring. The fit out company laying the floor were also faced with a tight timeline for completion.

The ideal solution was Luvanto Pace which was ideal for installing over the existing floor with minimal preparation.

Luvanto Pace is our new flooring range that is the fastest and, arguably, the easiest to lay. Each plank comes with a self-adhesive backing that is soaked into the built-in underlay. This means that any damaged planks can be up-lifted and quickly replaced due to the long life of the self-adhesive backing. Not only does this offer you similar design options as Luvanto Design but it also gives you a more forgiving installation and easier life-long maintenance.

We think you'll agree the results are stunning.
